

Satisfy your thirst for life
with pristine tap water
on demand

BLUEWATER SPIRIT
THE PREMIUM WATER PURIFIER

BLUEWATER SPIRIT

AN ENDLESS SUPPLY OF PURE, FRESH WATER

Functional and convenient

The Bluewater Spirit can be installed to work with most home appliances.

The Bluewater Spirit is a powerful, yet compact, under-sink water purifier that helps you create your own source of pure water right at home.

A sound investment in health and wellness

Delivering an amazing 39 gallons per hour* (150 liters per hour), it's one of the best investments you can make for your health and wellness. Bluewater Spirit removes chemical contaminants, heavy metals and pathogenic bacteria.

Superior second-generation reverse osmosis

Harnessing patented second-generation reverse osmosis technology called SuperiorOsmosis™, Bluewater Spirit turns municipal water into pristine water for drinking, cooking and washing. You can connect Bluewater Spirit to the refrigerator for crystal clear ice cubes and to the dishwasher to ensure sparkling glassware and dishes.

Easy to install. Easy to maintain.

Anyone with basic do-it-yourself skills should be able to install Bluewater Spirit, although we always suggest using a professional plumber. Pre-fitted water connectors and an electric cable on the back of Bluewater Spirit make it easy to connect the water purifier correctly to the water inlet and outlet system and the power source.

A new dimension in water filtration

The Bluewater Spirit adds a new dimension to generating cleaner, healthier water in home and commercial environments by improving the entire drinking experience. You get pristine drinking water and you can forget buying bottled water altogether. Satisfy your thirst for life by transforming your home or workplace into your own source of fresh water.

*WQA results: 37 gallons per hour (140 liters per hour) based on WQA test parameters.

Superior Osmosis

Patented SuperiorOsmosis™ for powerhouse delivery of clean water from the tap with more than 60% reduction in waste water compared to traditional reverse osmosis solutions.

Superior Flow

Benefit from a market leading high flow of water from the tap, delivering 39 gallons per hour* (150 liters per hour).

Contaminate removal

95-99% removal of most water-borne contaminants that can threaten health or taste such as lead, copper, cysts and nitrates.

Recovery

Slashes the reject water. An amazing 50-60% recovery rate reduces waste significantly, and helps reduce environmental impact.

Long-life membrane

Our patented design dramatically extends the life of the membrane filter beyond all competing products.

Cooking

Great for cooking. The Bluewater Spirit removes practically all the impurities that can impact food quality.

Installation

The Bluewater Spirit is easy to install by anyone with basic plumbing skills and changing the filter is simple.

Energy efficiency

Energy efficiency has been designed into the Bluewater Spirit to help reduce operating costs and carbon footprint.

Awards

The Bluewater Spirit has been honored with international awards for its design and engineering

Beautiful design

The Bluewater Spirit is designed to fit into the style of your kitchen.

Tankless direct flow

Water is purified directly on demand and no tank is necessary.

Inlet low feed pressure switch

Automatically turns off unit in case of water pressure loss.

Filter monitor

Monitors and alerts you when filters need to be replaced.

Leak detection and shutoff switch

Detects leaks and shuts off unit automatically.

Membrane flush valve

Performs periodic flush of filter membrane to maintain optimal flow rate and filter life.

Purified water quality monitor

Monitors quality of water and alerts you when quality is low.

Fully enclosed

Sleek and stylish – looks as great as it works.

Models available

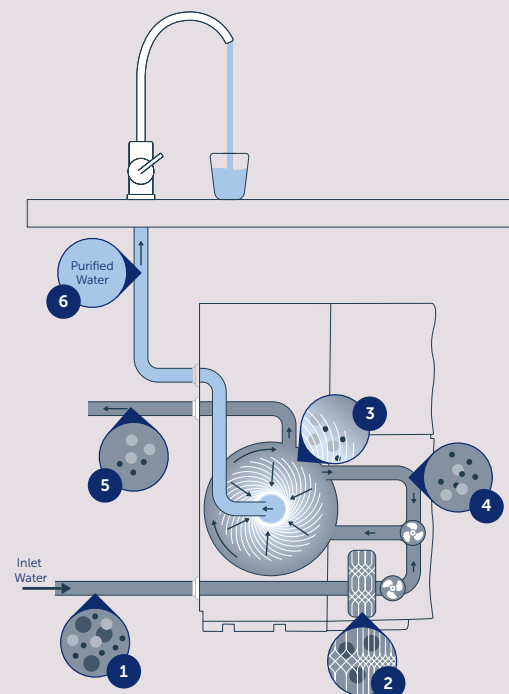

- Bluewater Spirit 300 CP HR – pressure controlled with a high rejection membrane.

Product dimensions

5.9 x 14.4 x 18.2 inches (W x D x H)

Our purification process

1. Unfiltered water enters the Bluewater Spirit via the inlet water.
2. Larger contaminants are removed using a high-quality Bluewater activated carbon pre-filter.
3. Bluewater's superior membrane removes the tiniest contaminants down to 0.0001 micron in size (that is 400 times smaller than the smallest virus).
4. Bluewater's patented SuperiorOsmosis™ circulation technology continuously cleans the membrane, ensuring higher flow, better purification, less waste water and longer membrane lifetime.
5. Harmful contaminants are flushed out with the outlet water.
6. The Bluewater Spirit delivers crystal clean, healthier and great tasting drinking water directly out of your tap.

Good for You
Good for Humanity
Good for the Planet

Bluewater harnesses patented technology to deliver enhanced water quality in a world where tap water taste and safety can no longer be taken for granted. We believe everyone has the right to drink water that is as clean as nature intended. That is why our technology is designed to deliver water for residential and commercial drinking, cooking, washing and other purposes that is free of bacteria, toxic metals, pharmaceutical and chemical residues, and the likes of limescale.
